In case the State fails to repay the sums borrowed, or any part thereof, according to conby adding the following sections: tract, the mortgagee is hereby authorized to sell, after thirty days' advertisement in at least two newspapers published in the city of Raleigh at public auction, such portion of the stocks or bonds mortgaged, and the interest of the State in relation thereto, as may be necessary to repay said loans. And in case of such sale, it shall be the duty of the Public Tressurer to transfer and convey to the purchaser the stocks or bonds sold together with such interests and rights as the State may own in relation to the same; provided, that no sale shall take place under this act sooner | October 1, 1868, and payable thirty years therethan the 1st day of October, 1869.

After a debate of some length between Messrs. Seymour, Estes and Sinclair,

Mr. Durham said that they should not pass the bill on its second reading for, if the object intended we go on record as being in favor of giving the Treasurer power to hypothecate all the property of the it, and he thought the object would be pay a dividend of eix per cent before any dividend effected by the adoption of Mr. Seymour's shall be declared on the other stock. such extraordinary powers on one man .-

Mr. Estes: Then the House would be responsible for the depreciation that such action would have on the State bonds. He still insisted that the striking out of those sections would make the whole an absurdity. He could not see why the bill should not pass its second reading, and, on its third reading, be amended to suit the views of the House.

Mr. Seymour said he had heard that there was a scheme on foot to sell the property of the State. He thought such a measure would have come before the House on its own merits, but here it is put forward insidiously, under the cover of an appropria-

Messrs. Editors: - As there seems to be some misapprehension in regard to the order of Gov. Holden to the Sheriff of Robeson in connexion with the band of robbers which have infested this county for the last five years, I will give you a short history of the matter, so far as time

and space will permit: This band of robbers and thieves was organized during the war, about the year Mr. Laffin now moved to suspend the 1864, by some escaped Yankee prisoners from Florence, who concluded to take up rather than go back into the Federal army. They had no difficulty in finding recruits here among deserters, mulattoes, &c., and at once began operations, having robbed, perhaps, over one hundred persons and killed a number. The amount of property stolen by these scoundrels was very considerable, and many of the best citizens portion of the band took their departure for Wilmington, carrying along the greater portion of the jewelry, watches, &c., that

had been stolen from the people. Some two or three of the Lowrys who belonged to the band had been shot, but several were still left, among them one Henry Berry Lowry, the chief, who had in December, 1864, ambushed and killed James P. Barnes, one of our best citizens; also, Brant Harris was shot by this fellow idated school report for the county of New while riding along the public road. The jailor, Eb Jones, was inin accordance with the provisions of the ontlaw, and the result is that on Saturday State Constitution and acts passed by the night when the jailor enters, he is conthe figures shown by the report, which we great criminal who has twice escaped prison is let loose upon the public to plunder and rob. The order of Governor Holden is a good one, and should be strictly carried into effect. As there has never been any effort by the civil authorities to put down this gaug, we think it is time that some steps were taken to that end. We learn that Holden has been petitioned by the LIPPIIT and all Druggists and Dealers everypeople to take some steps in the matter.

This fellow Lowry is a cross between an Indian and mulatto, and has committed over one dozen murders in his life.

## Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this exellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the ystem seemed utterly iven up to corruption have vielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter,

have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy. Scrofulous poison is one of the most destructive enemies of our raca. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases. without exciting a suspicion of its presence. Again, t seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddealy deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the Sarsaparilla as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or humors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly heredi It does, indeed, descend from parent to child. but is also engendered in persons born of pure blood. Low living, indigetion, foul air, licentious habits, uncleanliness, and the depressing vices generally, pro-lace it. Weakly constitutions, where not fortified by the most constant and jadicious care, are peculiarly liable to it. Yet the robust, also whose turbid blood swells the veins with an apparently exuberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on inmunity from it, nor feel insensible to the importance of an effec-

in St. Anthony's Fire, Rose or Erysipelas, for Tetter, Salt Rheum, Scald Head, Ringworm, Sore Ears and Eyes, and other eruptive or visible forms of the diseases caused primarily by the scrofulous infection, the Sarsaparilla is so efficient as to be indispensable. And in the more concealed forms, as in Dyspensia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and other affections of the auscular and nervous systems, the Sarsaparilla, through its parifying power, removes the cause of the disorder and produces astonishing cures. The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts combined with it, of still greater power.

potent is this union of healing virtues, Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. Leucorrhaa or Whites, Uterine Ulcerations, and Female Diseases in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our Sarsaparilla. Rheu natism and Gout, often dependent on the accumulations of extraneous matters in the blood, have their remedy also in this medicine. For Liver Complaints, torpidity, inflammation, abcess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the Sarsaparilla.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon felt by those who are Languid, Listless, Despondent, Sleepless, and filled with Nervous Apprehensions of Fears, or who are troubled with any other of these affections symptomatic of weakness. Many, after taking it for General Debility, have written us of the youthful vigor imparted to their nervous system, which seemed broyant with that prolific life they thought had departed on the advance of age. Others, whose fountains of life were always sterile, acknowledge their obligations to it for an obvious change.

## Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Bumb Ague, Periodical or Bilions Fever, &c., and indeed all the affections which arise from malarious. marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague dis-Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.
For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Thursday-100 \* N. Y. packages at 42 cents. Rosin -In the market for this article we have o important change to report as regards prices. For the finer qualities there has been no enquiry, and the market has been entirely neglected, and no sales reported. For the lower grades the demand has been somewhat limited, and the market has ruled quiet but steady; closing, however, with a firmer feeling at quotations given below. There is only a small stock in receivers' hands, and receipts light, and holders are not disposed to sell at present figures. We give the following sales for the week: Friday, 200 bbls. at \$1 70@11 75 for No. 2; Saturday, 20 bbls. at \$1 60 for strained. Monday, 285 bbls. at \$1 65@\$1 70 for No. 2; Tuesday, 800 bbls. at 31 60 for strained, and 11 65 for No. 2; Wednesday, 1.241 bbls. at \$1 60 for
